REAL-TIME AUDIO, VIDEO, AND PHOTOS

Safely view and communicate with visitors using a handheld wireless monitor with high-quality, built-in TFT-LDC color display.

TWO-WAY COMMUNICATION

The camera and monitor facilitate two-way communication with an integrated "request-to-enter" doorbell button and chime that can be approved or denied from the monitor.

UNLOCK AND LOCK YOUR DOOR

If using an electronic door lock, you are able to wirelessly unlock and lock your door directly from the handheld monitor.

NOTE Camera and Monitor
Distance Should Not Exceed
492 Feet.**
