

MILAN FENCE

Unique
Ornamental
Fence Design

FEATURES

Aesthetics

Milan fence perfectly combines curved and straight shapes to enhance the aesthetic on every architectural project and its surrounding areas.

Safe

The curved and smooth top finish on every panel makes Milan fence a safe alternative for those either inside or outside the fence perimeter.

Strong & Unique

Milan fence has a unique design combining beauty and strength. The double wire reinforcement across the panel gives it that extra impact strength required.

APPLICATIONS

Parks, playgrounds, commercial areas, corporate offices, hotels, residential areas, parking lots, zoos, schools & colleges, vineyards, among others.

Designmaster Fence Milan design is one of the only continuous welded wire fences in the world. Safety features include, curved top and bottom finishes and 2" vertical openings.
